OBJECTIVE

As a recent graduate with a BTech and a passion for IT Field, I am actively seeking an entry-level developer position where I can apply my academic knowledge and skill set to contribute meaningfully. My coursework in CSE has equipped me with a solid foundation in Java, Javascript , DBMS, HTML\CSS,C Language and I am eager to further hone these skills in a professional setting. I am particularly drawn to specific aspects of the Industry/Company, and I aspire to Your Aspirations in the Industry, e.g., innovate, solve complex problems, drive growth. My dedication to continuous learning and my strong work ethic make me a valuable addition to any team. I am excited about the opportunity to learn, grow, and contribute to the success of Company.

PROJECTS

Shopper Ecommerce Web App

- Created a multi-page responsive Ecommerce site, 'Shopper,'.
- Improved user experience (UX) by implementing secure login/signup, optimizing cart management, and boosting user engagement by 20% through real-time cart total calculation.
- Utilized components, states, hooks, routing, and property passing for robust functionality.
- Tech Stack: HTML, Tailwind, JavaScript, React.js.

My Portfolio

- Developed a responsive portfolio website using React.
- Demonstrates personal identity and achievements.
- Review my work and don't hesitate to contact me at your convenience.
- Tech stack: JavaScript, HTML, CSS.

Helping Hands

- Helping Hands is a home service-based start-up. It is a mobile-based application that provides day-to-day services by skilled professionals. Helping Hands is an app-based service marketplace that connects customers to service professionals.

Call Processing Optimization

- Call Processing Optimization is a web based application to handle the customer's enquiries. This is an expert system which automatically handles the customer queries and gives the relevant result without any human interaction.
